**Deaf and Hard of Hearing Program**

The Vocational Rehabilitation (VR) Program is the public and state federally funded program that assists Deaf and Hard of Hearing individuals to choose, prepare for, obtain and maintain employment. Employment being the successful outcome of services provided through the public rehabilitation program. It is expected that individuals who apply for services are interested in becoming employed and understand that this is the focus of the VR program.

**The Employment Plan**

The eligible individual and a Qualified Vocational Rehabilitation Counselor develop an Individualized Plan for Employment (IPE). The IPE identifies the Employment goal that the individual has chosen, the time expected to reach the goal, and the services needed to reach the employment goal.

**Staff of the Program**

Clear communication between the vocational rehabilitation counselor and the Deaf or Hard of Hearing individual is one of the keys to successful employment outcomes. ORS counselors use the individual’s preferred communication method and understand the employment challenges of the Deaf and Hard of Hearing communities. The staff serves as a resource to professionals, state agencies, community organizations, and the public providing information related to employment, training and accommodations for persons who are Deaf or have a hearing loss.

**Eligibility**

Deaf or Hard of Hearing individuals who have difficulty with work, getting or keeping a job, are eligible for this program.
