ADDENDUM #1 – REVISED 10/1/12
The Rhode Island Department of Education and
Department of Human Services/Office of Rehabilitation Services

I: Purpose

This Cooperative Agreement (CA) represents a vision of collaboration between The Rhode Island Department of Education (RIDE) and the Department of Human Services/Office of Rehabilitation Services (DHS/ORS) that will effect the successful transition of students with disabilities from school into Vocational Rehabilitation Services for the purpose of achieving a successful employment outcome. The CA will be coordinated with other cooperative agreements and the policies and procedures of the RIDE and DHS/ORS. The CA is not a financial agreement; however roles and responsibilities, including financial responsibilities, of RIDE and DHS/ORS are identified in the document.

Title IV of the Workforce Investment Act of 1998, which amends the Rehabilitation Act, describes the minimum requirements for an agreement in support of Transition activities as the following:

1. Consultation and technical assistance to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities, including vocational rehabilitation services;
2. Transition planning by personnel of the designated State agency and educational agency personnel for students with disabilities that facilitates the development and completion of their individualized education programs under section 614 (d) of the Individuals with Disabilities Education Act (as added by section 101 of Public Law 105-17);
3. The roles and responsibilities, including financial responsibilities, of each agency, including provisions for determining State lead agencies and qualified personnel responsible for transition services;
4. Development of procedures for outreach to and identification of students with disabilities, students with an IEP or 504 plan, who need transition services.

II: Time of Performance/ Duration

The duration of the Rhode Island Department of Education (RIDE) and Department of Human Services/Office of Rehabilitation Services (DHS/ORS) Cooperative Agreement (CA) Amendment #1 is from October 1, 2012 to September 30, 2015.

The CA will be reviewed on an annual basis including a review by the State Rehabilitation Council and State Special Education Advisory Committee.

The CA can be amended and/or extended in writing with the agreement of both parties.

The CA may be terminated according to standards described in the Administrative Procedures Act.

III. Guiding Principles of the Cooperative Agreement (CA)

RIDE and DHS/ORS have established a common set of principals to guide the implementation of the CA. These are presented as a set of common expectations for the execution of the agreement.

Common Expectations

- Students will be provided support in mastering the self determination and self advocacy skills necessary to direct their own future.
- Planning for both education and vocational rehabilitation services will be guided by students.
- Students will be provided opportunities to develop skills necessary to exercise informed choice.
- Education and vocational rehabilitation services will be provided to students in the most natural setting for the skills being developed.
- Students will become increasingly self-directed as part of the transition from school to adult life.
- Students will be knowledgeable about supports and services available and how to access them.
- Students will become gainfully employed in occupations with career options.

It is the intention of RIDE and DHS/ORS to develop effective transition practices in partnership with all public agencies and local education agencies (LEA) engaged in the transition process to achieve these common expectations.

IV. Interagency Coordination and Collaboration

1. Interagency Consultation & Technical Assistance

- a) The DHS/ORS Administrator and the RIDE Director of Student, Community and Academic Supports will assign a representative to the RI Transition Council and commit available resources to support technical assistance and consultation activities.
- b) RIDE and DHS/ORS will share agency expertise with the RI Transition Council and partner agencies for consultation.
- c) The RI Transition Council will provide oversight and guidance for the development of statewide training for local education agency (LEA) personnel, DHS/ORS staff, students, parents and other transition partners (e.g. RI Transition Council, employers, Community Rehabilitation Programs, etc.) related to effective transition practices and services.
- d) RIDE and DHS/ORS will utilize needs assessment information generated by the RI Transition Council, State Rehabilitation Council, the ORS Comprehensive Needs assessment and from other partner agencies to identify and establish training interventions.
- e) RIDE and DHS/ORS will provide an annual schedule of professional development activities conducted by each agency or will notify all RI Transition Council partner agencies of new programs as they are developed.
- f) RIDE and DHS/ORS program evaluations will be shared with the RI Transition Council and the State Rehabilitation Council for recommendations of training needs.
- g) RIDE and DHS/ORS materials, brochures, guides, etc. will be provided to the RI Transition Council for comment.

2. Interagency Coordination in Student Centered Transition Planning

- a) DHS/ORS will assign a Rehabilitation Counselor to each comprehensive high school in the state. The list of assigned counselors will be made public and included in RIDE and DHS/ORS promotional materials.
- b) Assigned Rehabilitation Counselors will maintain a schedule of availability in the assigned schools and convey this schedule to appropriate local education agency personnel.
- c) Local education agencies, through the high school department chair or designee, will make every effort to schedule Individual Education Program (IEP) meetings during scheduled hours of the Rehabilitation Counselor no less than one month prior to the IEP meeting. If the assigned counselor is unable to attend the meeting, the school personnel, student and parent will have materials about Vocational Rehabilitation Services for the IEP.
- d) Assigned Rehabilitation Counselors will make every attempt to attend IEP meetings for DHS/ORS eligible students expecting to graduate in two years or less.
- e) Assigned Rehabilitation Counselors will also make efforts to attend meetings and events at assigned schools to share information about Vocational Rehabilitation with students, parents and school personnel.
- f) Students found eligible for Vocational Rehabilitation, who have a 504 plan or an IEP, will have an Individualized Plan for Employment (IPE) developed in coordination with the assigned Rehabilitation Counselor no later than the senior (or graduating) year.
- g) Mechanisms to monitor the implementation of this section of the CA will be included in the RIDE School Support Monitoring process and periodic review by the DHS/ORS Transition Coordinator.

3. Interagency Roles and Responsibilities

- a) Lead agencies in executing this CA are as follows:
 - RIDE is responsible for the implementation and compliance of Local Education Agencies with the Individuals with Disabilities Education Act (IDEA) and all Rhode Island education laws and regulations.
 - DHS/ORS is responsible for the implementation and compliance of Title IV of the Workforce Investment Act and all related Rhode Island laws and regulations.
- b) Qualified Personnel
 - All personnel assigned to responsibilities described in this agreement will comply with the certification requirements of the respective lead agencies.
- c) Agency Responsibilities
 - Appendix I includes a matrix of the primary, shared and minimal responsibilities of the RIDE and DHS/ORS for the delivery of transition-related services for DHS/ORS eligible students in transition.
- d) Policy Development
 - RIDE and DHS/ORS will utilize the RI Transition Council and the State Rehabilitation Counsel as a venue for developing transition-related policies in the respective agencies. RIDE and DHS/ORS will follow their own agency's policies for the review and development of policies including the review of the Special Education Advisory Committee.
 - RIDE and DHS/ORS will notify each other when new policies are in development or of policies that are being revised, to encourage collaboration in policy development related to transition.

- e) Program Evaluation
- RIDE and DHS/ORS will share the definition of each agency's data collection system and seek opportunities to crosswalk data.
 - RIDE and DHS/ORS will jointly participate in third party monitoring activities of the respective agencies programs.
 - Results from RIDE and DHS/ORS program evaluations will be shared with the RI Transition Council and the State Rehabilitation Council.

4. Outreach

- a) RIDE and DHS/ORS will attempt to coordinate all outreach activities to ensure that eligible students with disabilities, 504 plans and IEPs, are identified before graduation from high school. RIDE and DHS/ORS will:
- Utilize existing RIDE census data to aid in the identification of possible eligible students.
 - Collaboratively develop service delivery mechanisms to improve the positioning of Vocational Rehabilitation Services in school counseling (career guidance), school to career activities, career and technical education and other career development initiatives in Rhode Island high schools.
 - Ensure DHS/ORS collateral materials are available in all schools.
 - Engage 504 Coordinators with each LEA to provide ORS information and meet with potential referrals.
 - Ensure DHS/ORS Rehabilitation Counselors are informed of outreach opportunities in high schools to connect with eligible students and parents.
 - ORS and RIDE will identify 504 coordinators for each high school and the ORS Rehabilitation Counselor will meet with 504 coordinator of each school to develop a referral process and to provide information about VR services

IV: Confidentiality

Personal information about any individual student or family will not be shared between RIDE and DHS/ORS without a release signed by the student (if 18 or over) or the parent or guardian when appropriate. Program evaluation reports and other data reports will include aggregate data rather than information about specific individuals. Specific information will not be included in public reports unless there is a specific signed release.

V: Process for Resolving Disagreements

1. Administrative Consultation

- When RIDE and DHS/ORS cannot resolve disputes related to the implementation of the MOU or the delivery of services, the Administrator of DHS/ORS/VR and the RIDE Director of Student, Community and Academic Supports will review the dispute and determine together if resolution can be accomplished.
- The Administrator of DHS/ORS and the RIDE Director of Student, Community and Academic Supports will review the dispute related to the statutory obligations of each agency.
- The Administrator of DHS/ORS and the RIDE Director of Student, Community and Academic Supports will render a decision and inform all parties of the result and, if necessary, amend the MOU or other agreements or policies.

- If the dispute is not resolved by the Administrator of DHS/ORS and the RIDE Director of Student, Community and Academic Supports, the dispute will be reviewed with the Director of the Department of Human Services and the Commissioner of Elementary and Secondary Education.

2. Mediation

- In the event of an unresolved dispute, the matter may be referred for mediation if both parties agree to mediation.
- A mediator acceptable to all parties will be designated and mediation attempted.
- RIDE and DHS/ORS will equally share the costs of the mediation.

3. Arbitration

- Should mediation be unsuccessful in resolving the dispute, the parties may proceed to arbitration. If a matter, which has been mediated, proceeds to arbitration, all communications and deliberations related to the attempted mediation shall not be admissible in the arbitration.
- Arbitration through the American Arbitration Association is binding.
- The rules and regulations of the American Arbitration Association that are in effect shall apply.
- RIDE and DHS/ORS will share the cost of arbitration equally.

VI: Collaborative Services Chart

The Collaborative Services Chart is intended to assist students, parents, school personnel and public and private adult service agency personnel in identifying responsibilities for the effective coordination and delivery of transition services for students. The Rhode Island Department of Education (RIDE) and the Department of Human Services/Office of Rehabilitation Services (DHS/ORS) have identified services on the chart that would fall under the responsibility of DHS/ORS, Local Education Agencies and/or other adult service agencies. All of the obligations identified on the chart are in accordance with state and federal laws and regulations.

The Collaborative Services Chart is intended to enhance the transition planning process and by no means replaces effective transition planning practice.

The Collaborative Services Chart is divided into 5 categories:

- Assessment Activities
- Career Development Services
- Community Living Services
- Related Services
- Auxiliary Aides.

Each table identifies the services in each category as they are defined in education and rehabilitation technology and which agency would be primarily responsible.

Assessment Services

ASSESSMENTS	LOCAL EDUCATION AGENCY	OFFICE OF REHABILITATION SERVICES	OTHER COMMUNITY/ADULT SERVICE AGENCIES
Functional Math/Reading/Written Expression	Primary	Minimum	Minimum
